|---|--|--|---|---------|--|---|--|---|--|--|--|---|---|--|--|--|--|--|--|--|--|---|--|--|---|--|--|--|--|
| | | Promoting the precautionary principles adoption in RFMOs following international conventions | | 60 mths | | H | | | | | | | | | | | | | | | | M | | | | | | | |
| 1.4. Development of fisheries specific management plans | Definition of goals and objectives, Adherence to RFMO conventions, Implementing national tools and HCRs (See also 3.4 below), implementing precautionary management measures, developing bycatch mitigation strategies (3.5), Applying MCS, and reviewing strategies | Tuna management plan document development following FIP suggestions | SDI, P4KSDI, PUP, PSDKP, KTI dan stakeholder lainnya (ASTUIN, ATLI, Agency of MAF in province and district, dll) and WWF/SFP. | 24 mths | | | | H | | | | H | H | | | | | | | | | | | | H | | | | |
| | Regular attendance at meetings | Preparing report with compliance reports on meetings related to WCPFC | SDI, P4KSDI | 60 mths | | | | | | | | | | | | | | | | | | M | | | | | | | |

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--|--|--|---------|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|---|--|--|--|--|--|--|--|--|--|--|--|
| | Adoption of the tuna management plan principles into existing area based fishery management plan | | 24 mths | | | | | | | | | | | | | | | | | | | | | | | | | | | | M | | | | | | | | | | | |
|--|--|--|---------|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|---|--|--|--|--|--|--|--|--|--|--|--|

2. STRENGTHENING THE INSTITUTIONAL FRAMEWORK

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--|--|--|--|---------|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|---|--|--|--|--|--|--|--|--|--|--|--|
| 2.1. Decision making and consultation processes consolidated through FKPPS and the Tuna Management Committee, which implements management strategies in territorial, archipelagic and EEZ waters | Legalize FKPPS and the Management Committee as a formal apex institution for Indonesian fishery management role as defined | Facilitate the availability of regulation (e.g. ministerial decrees) which promotes FKPPS and management authority to responsible on the tuna fishery management | | 60 mths | | | | | | | | | | | | | | | | | | | | | | | | | | | | M | | | | | | | | | | | |
|--|--|--|--|---------|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|---|--|--|--|--|--|--|--|--|--|--|--|

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--|--|--|----------------|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|----------|--|--|--|--|
| <p>Strengthen the role of Tuna Management Committee (at national level) and to formally undertake the fisheries management</p> | <p>Facilitate the availability of regulation (e.g. ministerial decrees) which promotes a certain body to be responsible on the tuna fishery management</p> | <p>SDI, Agency of MAF in province and district, stakeholder,</p> | <p>60 mths</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| <p>Decisions implemented centrally, and not at decentralized level. Provinsi and District implement policy, but not responsible for formulating and making decisions which are at variance with national management requirements</p> | <p>Facilitate the development of national regulation on fisheries management plan</p> | | <p>60 mths</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | <p>Monitor the FKPPS and government at provincial and national levels work following the regulation</p> | | <p>60 mths</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | <p>H</p> | | | | |

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|---|--|---|--|---------|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|
| | Allow for active engagement from stakeholders in management decision making. | Actively involve industry, research agency, NGOs in meetings related to the fishery decision making | SDI, P4KSDI, PUP, PSDKP, KTI dan stakeholder lainnya (ASTUIN, ATLI, Agency of MAF in province and district, dll) | 60 mths | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2.2. Identification of responsibility and capacity building across the range of implementing bodies | Allocation of tasks to specific stakeholders; Tuna Fisheries Satker, KKP, DKP Provinsi and District and Community groups | Facilitate the availability of regulation (e.g. ministerial decrees, directorate general decrees) on tasks allocation with specific job description to the right agency to support the fishery management | SDI, Agency of MAF in province and district, stakeholder s as described above. | 24 mths | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

3. RESEARCH ACTIVITIES

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|---|---|-----------------|--|--|--|--|--|--|--|---|---|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|
| <p>Increase private awareness and participation in the data collection by facilitating research activities and providing access to their production facilities</p> | <p>P4KSDI, BRPL, SDI, industry (direct and via industry associations)</p> | <p>24 mt hs</p> | | | | | | | | M | M | | | | | | | | | | | | | | | | | | | | | | | | | | |
| <p>Improve catch and effort statistics data and reports</p> | | <p>60 mt hs</p> | | | | | | | | M | M | | | | | | | | | | | | | | | | | | | | | | | | | | |
| <p>Increase research activities of the newly established research institute for indian tuna in benoa and encourage the establishment of the institute in bitung</p> | | <p>60 mt hs</p> | | | | | | | | M | M | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--|--|---|-----------------------|----------|-----------|-----------|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|
| <p>3.4. Formal harvest strategy adopted for Indonesian Pacific and Indian Ocean tunas linked to a set of (National or RFMO) Limit Reference Points, covering the range of fisheries (including those < 30 GT and 5 GT). The object should be consistent with RFMO advice, which in the case of the Pacific, is to limit effort to 2004 levels, and to reduce effort on YFT and BET by 30%</p> | <p>MMAF develops Harvest Strategy linked to CMM 2008-01 for EEZ/YFT and BET activities and restrictions on effort capped at 2001-2004 levels, In addition, the spirit of the measures (i.e effort control/capacity reduction in territorial /archipelagic waters if interactions with juvenile YFT/BET are significant.?</p> | <p>Support P4KSI on the development of scientific paper with regard to tuna resources and fisheries as a basis to develop the policy paper document</p> | <p>SDI, FKPP, KTI</p> | <p>6</p> | <p>mt</p> | <p>hs</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
